PERGAMON PRESS
PUBLISHING OFFICES
Headington Hill Hall, Oxford, OX3 0BW, England
Maxwell House, Fairview Park, Elmsford, N.Y. 10523, U.S.A.

Annual Subscription Rates 1978 (including postage and insurance): For Libraries, University Departments, Government Laboratories, Industrial and other multiple-reader Institutions—US$140.80 per annum (Combined subscription). Part A (Medical Psychology & Medical Sociology): $50.60; Part B (Medical Anthropology): $37.40; Part C (Medical Economics): $37.40; Part D (Medical Geography): $37.40.

Specially reduced rates to individuals: In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure. Any individual whose institution takes out a library subscription may purchase a second or additional subscription to Parts A–D for personal use at a much reduced rate of US $30.00.

All subscription enquiries should be addressed to the Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW. *Microform Subscriptions and Back Issues:* Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

AIMS AND SCOPE

Social Science & Medicine was established to aid the dissemination of important research and theoretical work in all areas of common interest to the socio-behavioral sciences and medicine, including psychiatry and epidemiology. The Editors and the Publisher hope to encourage the exchange of ideas and information throughout the world among those engaged in different disciplines who are focusing their attention on aspects of the inter-relationships between the various branches of medicine and the social sciences. Papers will be published covering all those aspects of anthropology, economics, education, geography, psychology, social work and sociology which directly relate to any of the problems of mental and physical health, and all those aspects of medicine, including epidemiology, medical education and practice, psychiatry, public health and nursing which directly relate to any of the social sciences. The Editors invite for editorial review and rapid publication original reports of systematic studies and research in which at least one variable is concerned with medicine, medicine education or medical services. They are equally interested in receiving significant and relevant theoretical contributions. *Additional features* will include: book reviews, proceedings of symposia, monograph supplements, details of research (planned and in progress), correspondence, and news.
